Our main products

Capacitor charging power supplies for medical and aesthetic applications

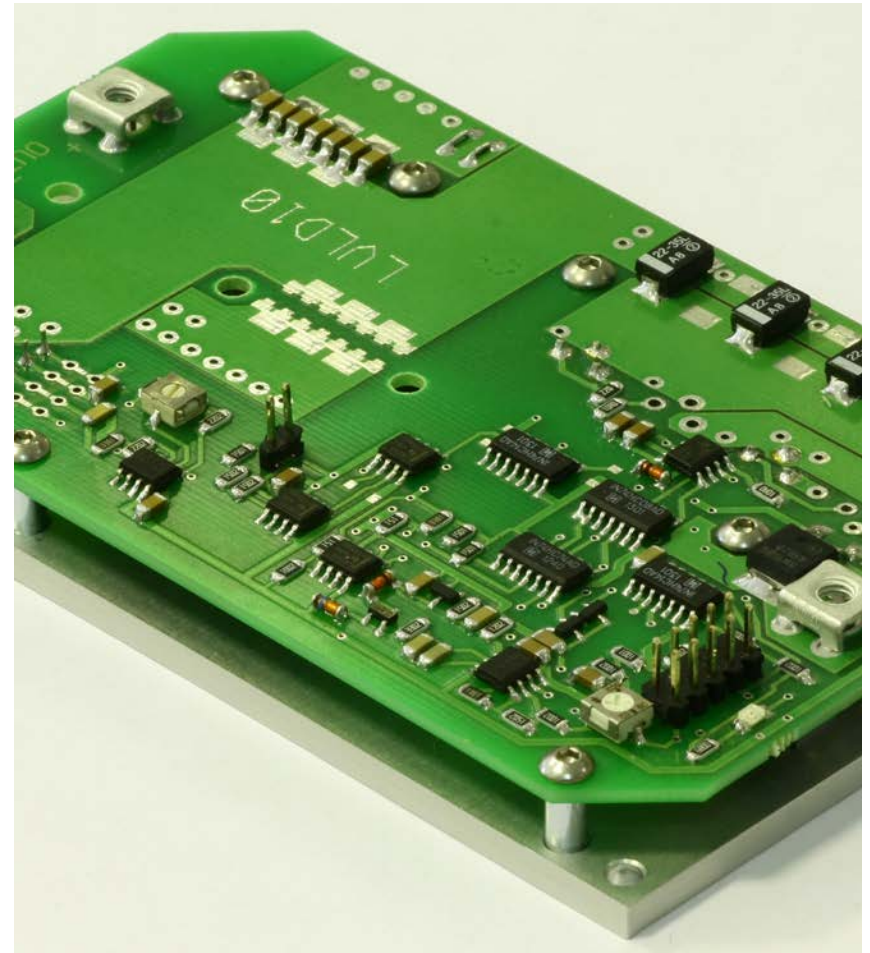

- Power 1000 - 2000 watts
- Main markets: Israel, S.Korea
- Production: over 1500 units ann.
- Typical customer: manufacturer of aesthetic devices, consumes 100-300 units annually

Our main products - 2

High power laser diode drivers for industrial application

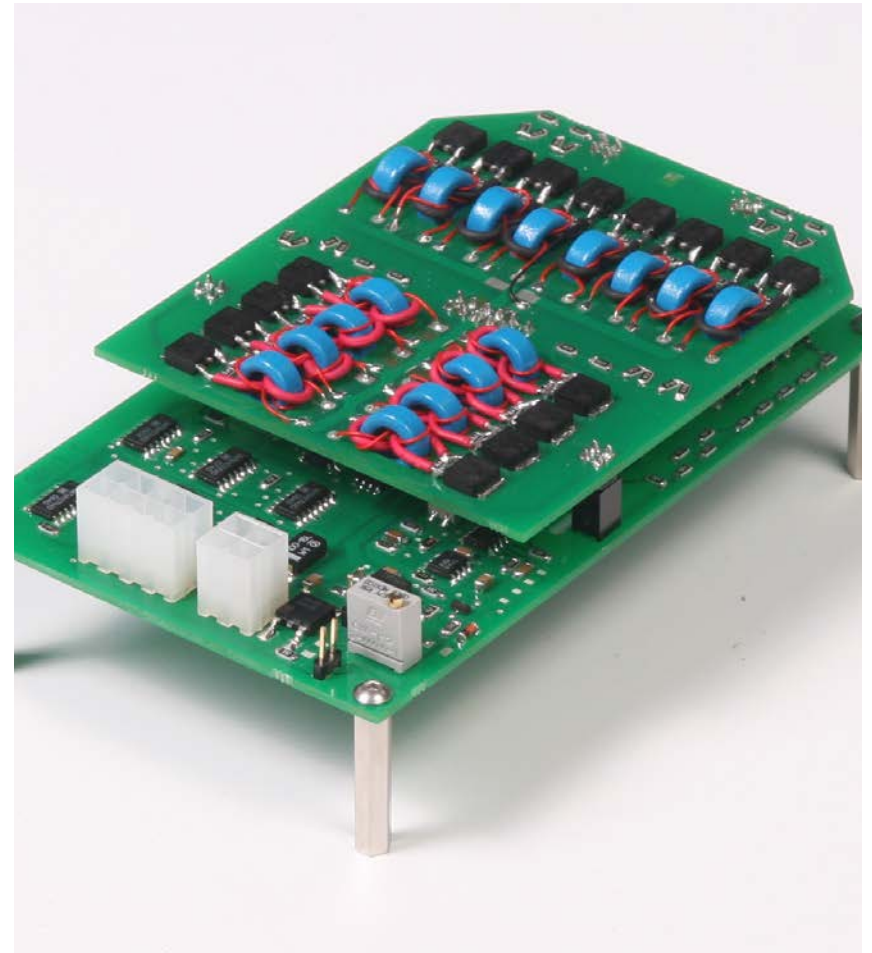

- Power 100 - 1500 watts
- Main markets: Israel, EU
- Production: 300-500 pcs per year
- Typical customer: manufacturer of industrial lasers, annual consumption 20-100 units

Our main products - 3

Pockels cell drivers

- Main markets: worldwide
- Production: over 200 pcs per year
- Typical customer: mostly scientific, some industrial customers

Some facts

- OEM Tech O.O.O. has been established in 2008
- Over 20 employees work in our office and production site in Minsk, Belarus
- Annual production over 2000 modules of all kinds
- Regular export to over 20 countries worldwide
- OEM Tech GmbH has been established in 2012
- Two employees work in our office in Jena
